SUPPLEMENTARY INFORMATION:

Background

The Appalachian National Scenic Trail (AT) is a north-south hiking trail that stretches nearly 2,200 miles from Maine to Georgia along the crest of the Appalachian Mountains. The AT is administered by the Secretary of the Interior, National Park Service, as part of the National Trails System.

At its inception, the AT traversed mostly private lands. Use of the private lands was enjoyed not only by hikers, but also by other types of outdoor enthusiasts. In the late 1970's, hang gliders in the area of Fox Gap, Pennsylvania, with the permission of the landowner, were launching from the ridgetop known as Kirkridge, along the Appalachian Mountains. The hang gliders formally organized and established the WGHGC for the purpose of promoting the safety of hang gliding and addressing liability issues.

Originally, the WGHGC used the area with the expressed permission of the landowner and, after the area was acquired by the NPS, the WGHGC requested permission from the NPS and was issued a SUP to continue using the AT area as a launch site. The WGHGC has proven by past conduct to be a good steward of these public lands. The WGHGC has assumed shared responsibility for maintenance of this popular section of the AT along with the local trail club. The WGHGC has a published maintenance schedule for its individual club members to provide trash pick-up in the general area. The WGHGC works with the local trail club to protect the resource qualities of the area and to ensure the area is safe for public use by other outdoor enthusiasts. The private landowners adjacent to the site have endorsed the continued use of the area by the WGHGC. Based upon a review of the past years of use by WGHGC and the experience of others (including the landowners and local hiking club) in the area, the NPS has determined that there are no known adverse impacts caused by the WGHGC activities.
